Maximum Seats -20

Rizvi College of Architecture presents

### SHORT TERM COURSE ON RESEARCH WRITING

December 3, 2022 - March 18, 2023

If you are a researcher, an academician, a practitioner, then this workshop is designed for you. Often, Architectural Representation is not limited to the visuals and drawings. The architectural writing matters the most as it requires theorizing, framing right questions, organizing material and structuring it as a journal paper, book chapter, op-ed piece or blog writing.

Over a period of four months we will conduct an intensive writing workshop which will provide you a peer group to deliberate and learn the importance of critical thinking and writing.
